SUBJECT: Reimbursement for Certain Detailees

STAT

1. On 17 September 1987, the Senate Committee on Appropriations reported out the Treasury Appropriations Bill. In that bill is contained a provision which would require, in FY89, that all parent agencies be fully reimbursed for employees detailed to other agencies for more than 60 days. Quarterly reports to the Appropriations Committee are required in FY88. This measure, which is attached, represents a compromise from language which would have required full reimbursement in FY88.

2. The House passed its version of this bill in July. It appears that the Senate will attempt to bring its bill to the floor for a vote sometime within the next few weeks and that conference would occur soon thereafter. In order that we may ensure the Agency's equities are fully protected, we ask that you comment on this provision at your earliest opportunity.

Agency Detailees

Strike line 19 on page 89 through line 2 on page 90 and insert in lieu thereof the following:

"Sec. 624. Notwithstanding any other provision of law, for the fiscal year ending September 30, 1989, when any individual Federal employee is detailed to an executive branch agency other than his or her employing agency for a period of 60 days or more, the detailing agency shall bill the executive branch agency to which said employee has been assigned for all salaries and expenses of said employee for the period of assignment after 60 days and shall be fully reimbursed for all such costs: Provided, that all Executive Branch agencies shall submit a quarterly report to the House and Senate Committees on Appropriations on all reimbursable and nonreimbursable detailees used by such agency during the fiscal year ending September 30, 1988."
